inside back cover**

Dedicated to

Noreen Hughes-Douglass

**without whose singular contribution to Hashdom
none of this would have been possible**

and to

Tim 'Magic' Hughes

the aforementioned contribution

Foreword

By d2hd and JR

This directory is a merging of the information collected by the Regional Hash Webmasters. Most of the information published here is available on the Internet. Much was also received via e-mail and post in response to our pleas for information. **Run #10, The International Hash Directory**, is targeted at the travelling hasher, presenting the core information needed to locate and run with a Hash. There is a good chance that wherever you are, a Hash club is nearby. Even if you're there on the wrong day, a Hash phone number could get you into a good Happy Hour at a club or embassy. Hashing is like the Masons without the secret handshake. All you need is a proper thirst.

The system of regionally collecting and maintaining information on Hash groups now covers the whole world. The organisation and links between the various Regional Hash Webmasters is as informal as the rest of the Hashing world. Such a widely dispersed approach to maintaining and publishing information has proved ideal for the Hash. It uses the Internet, and involves many Hashers around the world. This means if a particular Hasher can no longer contribute for any reason, only a small part of the network is at risk and it is relatively easy for someone else to pick up responsibility for that part. Many Regional Hash websites

also list special Hash events.

Hashers should not only be a users of the information we have provided here, but become an integral part of the updating process by providing critical information to the respective Regional Hash Webmasters when you obtain more recent information. Your mates throughout Hashdom will greatly appreciate your efforts. The organisation and links between the various Regional Hash Webmasters is as informal as the rest of the Hashing world so it can only be as good as what is provided. The Internet addresses of all the regional Hash pages are listed in this directory.

This regional approach to the publishing of Hash information is a logical development of the sterling foundation work done by Tim 'Magic' Hughes in collecting and publishing the first Hash Directory (he published nine of them). His achievement was even more remarkable in that it was done at a time when the core information had to be collected in paper form - there was no email available for quick and cheap communication. Even when Magic acquired email, it was virtually unaffordable in Thailand, where he lived.

Before Magic died in January 1998, he had taken steps to move to a more regional approach. With the assistance of others, he published his Directory on the Internet and he was further developing his strong links with Regional On-Secs and others around the world. At the Cyprus

Interhash in 1996, Magic bought the beers and called together the various regional Hash On-Secs and Webmasters with the aim of improving the accuracy of the information collected and how it was published. Regional Hash Webmasters have met at every Interhash since to continue this process.

At Interhash '98 in Kuala Lumpur, consensus was reached that future Interhash Committees would consider the publication of an International Hash Directory. Interhash 2000 in Hobart produced the first of Millennium. This Goa 2002 Directory is next in the series. Those actively hashing in the areas from where information has been provided have all contributed to this Hash Directory in true hashing spirit.

Taking our cue from Magic, we have endeavoured to provide Hashtorical notes for each Hash chapter in this Directory. Much of this information was obtained from the enormous efforts of Tumbling Bill Panton and Fuch in KL, where Hashing began. Their Hash Heritage Foundation's main activity is putting together the Hash Genealogy, which has been on display at the last three Interhashes, including Goa. Information includes date of first run, founders' names and their own personal mother Hash. With this last bit of info the family tree can be traced back to Mother Hash in KL. Check out these key facts for the Hashes you know and forward any additions or corrections to

Bill at bpanton@pc.jaring.my if you want your club listed in the Hash Family Tree.

Thanks to everyone who provided information.

Happy Hashing and On On !

Backword

by Digit

I know what you're thinking: 'What a doting piece of homage to Magic! How can these Goa blokes be so slavish about reproducing his Directory? Why couldn't they just do something unique?' Well, the people on the Goa Committee all thought Magic was pretty special, and we wanted to dedicate this Directory to his memory. How better to do that than to follow his lead? Magic's last Directory was entitled **Run #9**, so we've called ours **Run #10**.

For the record, however, there *are* a few things we've done differently. For example, Magic, at the beginning of his Foreword in **Run # 9**, published just after Interhash Cyprus 1996, said:

The World Hash Handbook & Directory - Run # 9 - may neither be used as a free mailing list for commercial gain, nor as a source to solicit business and information. It may not be photocopied for distribution, scanned for optical character recognition (OCR), stored in an electronic retrieval system, nor reprinted without permission in writing from the publisher.

Well, for the record, we don't care what the hell you do with this. Magic, you see, was a professional Hashman, surely the world's first. He depended on sales of his Hash publications to pay rent, eat and,

most importantly, to support his dependency on Singha Gold. This single-minded devotion to Hashing (and to Singha Breweries), as has been pointed out elsewhere, probably contributed to his early and unfortunate demise. But we're not professionals, we're only publishing this one Directory, and we're giving it away free to all Interhash registrants. After Interhash you'll never hear from us again. We'll just fade away.

Having said that, we did print a few extra copies, and if anyone wants one they should send me an email at digit@goa2002.com. Mailed copies will cost something, but we haven't yet worked out how much. Maybe we'll once again take Magic's lead. After writing the disclaimer cited above, you see, Magic went on to say:

Priced at US\$13.50 including airmail, it really is not expensive! Consider ordering several copies for your hash and collectively help generate funds to publish the next edition - Run # 10 - out of the proceeds.

And there it is, my friends, our cue for entitling this edition **Run #10**, straight from old Magic himself.

Magic, in his Foreword, continues:

This comprehensive ninth edition is published to help you get even more out of being part of this extensive worldwide Hash House Harriers (HHH) - network.

You will find information about even more kennels than before. Logos are included where possible. Please send in yours if it is not shown. This will be included in the next edition.

Well, Magic, we've done that in **Run #10**. Hope you approve.

Magic also enjoined travelling Hashers to contribute, both to his Directory by updating obsolete information, and to his much-missed *Harrier International* magazine, to which I was a devoted contributor. He said:

Please be a share hare! Especially those of you who travel frequently....The World Hash Handbook & Directory - Run # 9 - should be an integral part of every keen travelling hasher's kit....Remember what so many interhashers say: "You simply cannot effectively hash around the globe without it!"

Let me also include Magic's note of thanks to those who helped him in his efforts to provide the Hashing community with fresh and fecund information.

Many, many thanks go to On Secs and Interhash Secs everywhere for taking the time to update the information about their hash for this ninth edition. You will have really helped a lot of people.... In particular, Mr Spock, Spyder, Higgins, Sheepshagger, Flying Booger, Prof, Digit, Troll-Up, Robo, Whorator, Conan the Barbarian, Ferret, Leeky Dick, Dumb Dick

Head Dave, Bushwacker, Periodical and HI's Roving Hashman.

For the record, the 'Roving Hashman' referred to by Magic is none other than the ineffable Tumbling Bill Panton, who, in terms of contributions to the Hashing fraternity, comes a close second to Magic.

And of course, Magic could not resist reminding one and all of their roots, Hashtorically quoting from the Bye-laws of the Society of Mother Hash:

Even though HHH has been dubbed 'the drinking club with a running problem' we should remember the basic philosophy of our founders and the objectives which are:

- A. To promote physical fitness amongst its members.**
- B. To get rid of weekend hangovers.**
- C. To acquire a good thirst and satisfy it in beer.**
- D. To persuade the older members that they are not as old as they feel.**

At the Goa Interhash Delegates Meeting, a new venue will be chosen for Interhash 2004. The new Committee will be faced with the daunting task of preparing **Run #11**, or whatever they decide to call their Directory. Some say it's a waste of time, that everyone uses the Internet now, that a paper Directory is obsolete. Well, to each his/her own. But for me, a Hash Directory is a treasure, despite its drawbacks.

And there *are* drawbacks, no question. In some respects, producing a Hash Directory is a thankless task. The bloody thing is by definition out of date as soon as it's off the press. Hashers are always moving, and contact information is incredibly dynamic. Which is why, when you submit your club's info to a webmaster or a Directory editor, you should make sure to submit the names and contact info of your members most likely to sit tight, ie, *locals!*

We included logos! I've driven myself and others bonkers getting them scanned and downloaded. And who are those others? None other than d2hd and JR, the very duo responsible for the superb Taz 2000 Directory. They foolishly offered to take charge of compiling the Goa Directory, and I, not being nearly as stupid as I look, jumped on the offer. d2hd and JR, kind souls that they are, worked hundreds of hours updating and adding the Hashtorical info and the logos I insisted on including, much of which was harvested by the abovementioned Dynamic Duo.

Also deserving a plug for hard, focused diligence is none other than my scion and heir, Fast Food, who did the lion's share of harvesting Hash logos from the Internet. Dingaling, who put the whole thing into PageMaker, is a bloody hero. And finally, thanks to Tumbling Bill, 'Ted' Quirk and Whorator for their assistance in retrieving Magic's essence.

Be advised that the entire database of this Directory is available absolutely free to anyone who wants it. We ask for neither credit nor money. But we will gladly accept beer - especially if our glasses are raised together to the one who made it all happen!

*Here's to Magic, he's true blue,
He's a bastard through and through!
He's a pisspot, so they say
Tried to get to heaven in a long, long way!*

*Drink it down down down down down down

On home, Magic!

THE INTERHASH DIRECTORY: A REVIEW & OPINION

Introduction

For those who are more recently arrived on the InterHash trail, you may not be aware of the history of the Directory and who did what and when. I'll provide some discussion of the facts in this review so that when the history of the Directory and the role of its progenitors is discussed, that can be done from a much more informed basis than has been the case in the past.

Discussion

The following discussion should be read in the context of a Hash world (Hashdom) that in 1978 was much smaller than it is today. Following that original InterHash in Hong Kong in 1978, the geographic and demographic spread of Hashing experienced profound and rapid growth. Hashing had become a creature, which embraced both men and women and then children and also dogs! Hashing has spread from its Kuala Lumpur origins to the far-flung corners of the globe. What was essentially an expatriate activity in East and South East Asia in 1978 had by InterHash 1984 in Sydney become a much more global beast. Always remember that hashing began before WW2 in 1938 and we also know that some were engaged in Hash type activities for some years before the name Hash House Harriers was coined.

Incidentally, I like to maintain a separation from Hashing at a club level and InterHashing. The demands and expectations by the broader Hash flock on the InterHash committee are at present beyond reason and would have you laughed out of many a club Hash circle. Hence my differentiation. Let me cite child minding and travel agency responsibilities as two (only) examples that nobody would ever make of their local Hash committee. You may care to consider this the next time you make some outrageous demand on your Interhash committee members.

Directories

Hash directories have been around since InterHash 1978 in Hong Kong (the first InterHash '*Unconvention*') in one form or another. The first comprehensive directory produced by any InterHash Committee was put together by the excellent InterHash Sydney 1984 Committee (Well done Captain Knockers!) using the data gathered during their tenure as InterHash Mismanagers. Some individual Hash clubs were also producing lists of Hash contacts in their Yearbooks at that time, for example Jakarta Hash who in 1982 went on to host InterHash. At the same time, Mother Hash in Kuala Lumpur, under the dutiful care of the equally excellent and ever more Hashful John Duncan, was collating and sometimes publishing but ALWAYS sharing their database.

By 1986 at InterHash Pattaya there were 3 directories. They included John Duncan's MotherHash directory, the InterHash Pattaya 1986 directory (put together by Timothy John Patrick 'Magic' Hughes and Whorator during their tenure as InterHash Mismanagers) and a 3rd directory which was produced by that also excellent Hasher, Richard 'Polly' Hadfield from Kuala Belait, Brunei.

Soon after InterHash 1986 in Pattaya, John Duncan, Polly and Magic gathered and agreed that Magic should continue to publish his directory while John Duncan would continue his work at recording but not publishing contacts. (This work by John Duncan laid the groundwork for the Hash Genealogy put together by 'Tumbling Bill' Panton, who incidentally began the Bangkok Hash where Tim Hughes began his Hashing.) Magic then continued to publish directories, both in conjunction with subsequent InterHashes and as a stand-alone publication. He also published an International Hasheet or magazine for subscribers.

Then, on 24 January 1998, TJP 'Magic' Hughes went off on, on his long shortcut and has not been seen since (RIP Magic). By that time he had published 9 versions of the Harrier International Directory on a somewhat erratic timetable that nonetheless seemed to be quite Hashful in its nature. Tim worked hard with the various InterHash Mismanagement committees to have a Directory available

for each InterHash. He sold the advertising while battling the vagaries of publishing and transporting box loads of directories to the subsequent InterHash locations. In retrospect it is now obvious that there was a causal relationship between Magic's failing health, failing finances and his erratic publishing schedule.

In 1998 InterHash returned to KL for the diamond jubilee of Hashing. On the Sunday morning of that event a gathering of individuals interested in continuation of the publishing of an Interhash directory met to discuss matters directory and the growing internet influence on InterHash. The meeting, somewhat presumptuously perhaps, divided Hashdom into zones and appointed regional Hash webmasters to set up websites that would hopefully facilitate Hashing throughout Hashdom by providing regional WWW listings of Hash contacts, in other words regional electronic directories, currently cross linked and also linked to and from the InterHash Goa 2002 website at www.goa2002.com. One assumes such a facility will be continued at the next and subsequent InterHashes.

The Interhash KL 1998 committee was represented at the meeting and so were about 20 others, including myself, and various regional nerds who Hashed. Those present agreed that it would be the subsequent responsibility of each

InterHash committee to produce an upgraded directory to be handed out to each Interhasher at the event. Tasmania did just that on the year 2000, and did it well.

The Interhash Goa 2002 committee in turn has also accepted its responsibility, as outlined above, and has produced a directory that replicates much of Magic's design - indeed he is listed in the credits as Designer. A major difference in the Goa directory from the Taswegian product consists of the clubs listed. Goa has added listings to those whose clubs are listed with the various regional webmasters. Not every club chooses to engage with the webmasters and that alone should not qualify or disqualify them from the Interhash directory.

The directory you hold in your hand is therefore more inclusive. Notwithstanding that, the Interhash Goa 2002 World Directory is not the sole basis for qualification or disqualification for entry to the Interhash Delegates' meeting on Sunday morning in Goa on 29 September 2002. Those seeking entry were invited to register in advance by the Interhash Goa 2002 Committee in Flyer No. 4, which was posted to all Interhash registrants in July 2002. The flyer was simultaneously posted on the website as a PDF image. It was the responsibility of each club (and each Interhash

registrant) to respond to this invitation to designate a representative.

Now I would like to address some specific comments.

The Interhash Goa 2002 Committee is publishing a directory in accordance with the precise agreement and instructions of the previous InterHash Hobart 2000 meeting of Interhash Delegates. This agreement and instruction was a follow-on of the initial 1998 KL agreement of the interested parties I have described above and confirmed at the subsequent Interhash Delegates' meeting at Interhash KL 1998. It has been incorrectly suggested by some that the initiative was started by David 'd2hd' Newman in Australia. That is incorrect. d2hd and his partner, JR, simply facilitated the wishes of two past Interhash committees, 1998 and 2000, to continue the tradition started all those years ago. The published directories are funded by those who registered at InterHash.

[Editor's note: Whorator is correct. I did try to find a sponsor to pay for the Directory, but was unsuccessful. Therefore this directory was indeed published out of your registration fees. The 'intellectual property rights' (now, there's a decidedly inappropriate term for a Hash venture!) are therefore yours, and we will cheerfully share our entire database with anyone who wants it. Digit.]

The InterHash Goa 2002 committee met in September of 2001 at Indian Nash Hash and among the many matters discussed was the InterHash Directory. That meeting authorised and indeed instructed the relevant sub-committee to get on with the task of preparing the InterHash Goa 2002 directory, and so it has done. As promised, you have received a copy of the InterHash Goa 2002 Directory in your goodie bag.

Conclusion

The InterHash Directory is published so that InterHashers may use the data therein to engage in the beery pursuit of Hashing in unknown climes. It is not an authority to be used to gain entry to any meeting and/or enfranchise Hashers when selecting the next InterHash location. Neither is it meant to qualify, or disqualify, any individual or Hash group from any event. In making this last comment, I acknowledge that it has been so used in the past at InterHash. By its very nature Hashing is too mismanaged to use some sort of electoral roll.

It follows therefore that it is time that those charged with the responsibility of producing each InterHash Directory were left to get on, on with the job. Input has been sought from many to help complete this task and such input is welcomed. However, until the InterHash community directs a change in the current arrangements, the responsibility

for publishing a directory clearly
remains with each InterHash committee.

On on forever

Frank 'Whorator' Benfield
Former Deputy Chairman
InterHash Goa 2002

Tumbling Bill's Genealogy

I would like to point out...!

That Bill is a hero. He really is. Don't believe me? I'll prove it. Here's a piece of correspondence that took place in late 1998 that explains itself. The correspondents are Bill, myself and Ken 'Grumbles' Grumley, Joint GM of the Thriller in Manila in 1990, and a long-time Hash buddy of mine. You have to appreciate the lengths Tumbling Bill will go to in order to get his Genealogy right.

Email #1, Digit to Grumbles, 25 Oct 1998

Subject: The Vet

Grumbles

How's it going, mate?

Like the Mortician suggested, KL was great. The best thing about Interhash 98, however, was something the young sod never mentioned. This was a wonderful display depicting hashtory. Tumbling Bill Panton (founder of some quite old chapters himself and one of the hoariest Hashers still running) and Mike Lyons (a gentleman of similar vintage), have spent countless hours over the past several years putting all this together.

They organised a display of all previous Interhashes, complete with t-shirts and souvenir programmes of each one. Mugs and paraphernalia from all over were there, plus special news releases and hashtorical info, much of it from poor old Magic's lair.

But the best item by far was the genealogy. Bill and Mike started out with the premise that all Hash clubs are descended from Mother Hash. So what they did was to try to find out where each club's founder previously hashed. Many clubs were traced back only so far, however, and no link to Mother Hash could be detected. For example, I informed Bill yonks ago that Hyderabad HHH, which I founded, was derived from Manila HHH, my personal hashing womb. Imagine my astonishment upon locating Hyderabad HHH in the 'illegitimate' category. Bill promptly informed me that this was because Manila was also illegitimate!

'But Tim the Vet founded Manila!' I protested.

'Yeah, I know, Digit, but where did HE come from?' queried Tumbling Bill.

I told Bill that Tim is from South Africa and recalled that Tim had once told me that he had founded a Hash near Durban. We checked. Sure enough, a now defunct chapter called East London HHH indeed existed outside Durban in the early 70s. So it seems logical to assume that Manila HHH was derived from an African club. But the upside down nature of this (an African club giving birth to a fairly venerable Asian club)

seemed so weird that Bill and Mike insist on PROOF!

I have no idea how to contact the other founder of MH3, Jim 'Ratcatcher' Howard, and I don't think anyone in Manila even remembers him.

I am writing to you for two reasons.

1. I thought you lot in Manila would appreciate being informed of your illegitimacy.
2. I considered that you may have further information that may be of use to Bill/Mike in completing their erudite work. Manila, which may well be the oldest club in the 'illegitimate' category, is an important kennel, not to mention the host club of Interhash 1990. Also, the Africa-to-Asia possibility is unique. They are therefore very keen to solve this riddle. Can you help? If not, can anybody send me contact info for Tim in South Africa?

At any rate, as Chairman of Interhash '90 and a senior MH3 veteran, you probably need to know about all this. Any elucidation you can provide would be most welcome.

On on, Digit

Email #2, Grumbles to Digit, 26 Oct 1998

Dear Eric

As Manila Hash has always said – “We don't ONE but we always know where to find ONE!”

How do these F**KERS get off calling us

Illegitimate – BASTARDS that's what they are! As to the Vet – I have just got hold of his e-mail address – tntdavis@dbn.lia.net! I sort of remember that someone in the Nomads was near the original committee, maybe it was the guy you mentioned! Malcolm might know more as he is very ancient!

As to Tassie – I am giving it serious thought and will try to GO!

I will also bring the topic of our ancestry up before the Circle tonight – it is in the car park of the Citadel, an appropriate setting to discuss such a issue!

On On
Grumbles!

Email #3, Tumbling Bill to Digit, 28 Oct 1998

From: bpanton@pc.jaring.my
To: emcgaw@hd1.vsnl.net.in
CC: miklyon@pc.jaring.my
Subject: The Vet
Date: Wed, 28 Oct 1998

Digit, thanks for your help re Manila genealogy contact. East London H3 certainly looks like it could be the missing link in the line between KL H3 [1938] and Hyderabad H3 [1990].

My line of reasoning would be as follows:

As Peter Dominey, from Kuala Lumpur H3 founded the Durban H3 on 19 September 1971, it seems not unlikely that Tim Davis

ran with Durban H3 prior to starting the East London H3 some time between late 1971 and the birth of Manila H3 in 1974.

If this is correct, then your Hyderabad H3 will be the great great grand-daughter of The Kuala Lumpur Mother Hash, through the above line of descent.

As you say, what we require now is the proof.

Can you give me your postal address so that I can send you a copy of the current genealogical table?

Bill.

See what I mean? Tumbling Bill is UNSTOPPABLE!

For the record, Bill was completely wrong. It turns out that Tim the Vet's co-founder Ratcatcher had Hashed with Jakarta H3, and so had Tim. Thus, Hyderabad H3 was spawned by Manila H3, which was spawned by Jakarta H3, which was spawned by Singapore H3, which was spawned by Mother Hash, which makes Hyderabad H3 a great great grand daughter of Mother Hash. It also turns out that neither Hyderabad nor Manila are illegitimate, which is awfully nice.

MAGIC

HASHBITUARY

Name: Timothy John Patrick Hughes,
PhhhD, "Magic"
Born: 06 October 1944 @ Little
Aston Park, Staffordshire,
England.
Died: 24 January 1998 @ Bangkok
Thailand.
Interred: Monday 26 January 1998 @
Catholic Cemetery off Charoen
Krung Road, Bangkok, Thailand.

Sometime after 10.00am on Saturday 21 April 1984, a gentleman stood up in the function room at Sydney's Crest Hotel and made a successful bid for Interhash 1986 to be held in Thailand. Representing the Bangkok Hash House Harriers, Tim Hughes supported by Colin Snow, told the assembled Hash delegates the plan was to hold the event at Pattaya Beach, south of Bangkok. The assembled delegates bought the plan! Tim had been to previous Interhashes in Kuala Lumpur, 1980 and Jakarta, 1982, but it was his successful Interhash bid in 1984 which put him on the Interhashional stage for the first time and launched him on the long trail to become the most well known Hasher since John Duncan of the Mother Hash. Soon

 Magic went On Home four and a half years ago, but when I took on the responsibility of carrying on his legacy of providing travelling Hashers with a convenient Directory, I wanted to replicate his style. It therefore seemed appropriate to ask one of his oldest and closest Hash mates, Whorator, to provide some sort of remembrance of the old sod. This Hashbituary, I think, especially with the postscript by John Duncan is, I think, eminently suitable for this purpose. Digit.

after the Pattaya Interhash '86 he became known as "Magic" because of his magic organisational capacities. In recognition of these capacities and his subsequent publishing record, he was awarded Hashdom's first, and only, PhhhD by the Pattaya Dirt Road HHH in 1988.

While Magic led a varied life this Hashbituary will concentrate on his Hashing exploits. However, it would be unjust not to summarise his other interests. Among these was music and from his late teens Tim recorded and toured with many Merseyside bands of the time and many other big name English and international bands.

Subsequently he left music and went to Spain working in promotions with Carreras Rothmans and Castrol. Then, in 1969, he joined the Anglo-Thai Corporation, a British trading aggregation and moved to Bangkok, Thailand, where he made his home for the rest of his life. Anglo-Thai soon recognised his organisational and marketing skills and made him Managing Director of Ford Thailand, responsible for sales and distribution of Ford cars and sugar harvesting machines. This job took him all over rural Thailand and exposed Tim to much of the Thai culture which always fascinated him, even if he never fully understood all of the nuances and values of this complex culture and people. In 1982 Tim left Ford and Anglo-Thai and became an independent businessman involved in travel, conventioning and publishing.

His love of the outdoors was evident in his

chosen pastimes of big game fishing and trekking in the high alps of the world. Tim represented Thailand on International Billfishing Committees from 1975 until 1989. He took part in, and later led, treks to Nepal and Peru combining his business requirements of travel with his recreational pursuit of trekking. In the mountains he found solitude and solace from the hurly burly of a rapidly developing Bangkok and Thailand. For while he had many friends in Thailand, Tim was troubled by the overt avarice of the emerging Thai middle class and its upper class leaders.

However, his favourite outdoor activity became Hashing. Tim was aware of the Hash for some time before he was convinced to "Dash and Splash with the Bangkok Hash". Some 28 months after Bill Panton led 10 of Krung Thep's finest on the inaugural run from Hua Mark on 11 June 1977 and 10 years after his arrival in Thailand, Magic first Hashed in Bangkok at Run 121 on 27 October 1979. Tim was registered as Bangkok H3 Hound number 147 and by Run 495 had completed 290 or 78% of that kennel's runs. He was a dedicated Hare having set 23 of those 290 runs. In short he embraced Hashing with a passion equalled by few others. He proudly proclaimed his Bangkok Hashing origins and always wore his "yellow" BH3 shirt with pride as his international Hash career took him from Cambridge to Toowoomba. In 1980 Tim was appointed Hash Music, the following year he was Joint Master and then he became Grand Master of the BH3 during 1982/83.

In 1984 he won Interhash for Thailand and went on to be Interhash Grand Master in 1986. This event was an outstanding success, acclaimed by Hashers from Aberdeen, Scotland to Zhanjiang, China. Following this event he became known, throughout Hashdom, as "Magic". Few have been more appropriately named. With the exception of Hong Kong, 1978, Magic attended each and every Interhash up to and including Cyprus 1996. He also travelled widely to regional Hash events in Australia, Europe and the USA, not to mention his more frequent Asian Hash meanderings.

By 1986 both the Mother Hash in KL and Polly Hadfield in Kuala Belait, Brunei, were producing international Hash directories. It was at this time that the Hash was in the middle of a worldwide growth spurt and neither of these directories were able to cope with the ever expanding Hashdom. The Sydney Interhash 1984 Committee produced an *International Directory* "as at April 1984" but it too was quickly out of date. Tim's visionary Hash mind saw the solution.

Using data collated during the preparations for Pattaya Interhash, Magic produced Hashdom's first journal, at his own expense, *Harrier International*, a division of Global Mismanagement Inc. for members of the Hash House Harriers, worldwide. Volume 1 Number 1 was published in January 1986 and the post-

Interhash '86 or Number 3 was published in May of the same year. 1986 also saw the publication of the almost A4 size first *World Hash Handbook 1986/87*, future editions were of a smaller size to suit the demands of an increasingly mobile world Hash pack.

The *World Hash Handbook* was Magic's solution to the travelling Hashers' problem of finding a contact for the Hash in "bloody Lagos" or Athens or Rotorua or even Bangkok or KL. Of course he reverentially listed the Mother Hash. Eventually 9 editions of The *World Hash Handbook* were published.

In September of 1989 Tim published the definitive history of Hashing: *On On! Hash House Harriers 1938-1988: A Golden Jubilee*. This was the result of exhaustive research and expensive travel as he pursued the origins and originators of Hashing. Following Sydney IH 84 Chairman, Ole Vigerstol's lead, he brought one of the Hash originals, Frederick "Horse" Thomson to Interhash '86. Magic also met with Cecil Lee in the UK and corresponded with the third living founder, Ronald "Torch" Bennett in South Africa. Other early Hashers he traced in search of the true story of the origins of Hashing included Frank Woodward & Llew Davidson, both then resident in the UK. Tim also traced A.S. "G" Gispert's family who provided much useful information for "*On On!*"

In more recent years Magic's publishing record became a little less frequent as his independent business ventures produced less income. His health also suffered, and consequently his capacity to attend Hash events and publish about worldwide Hashing was restricted. Sadly this meant Magic was seen less on Interhashional trails worldwide. Nonetheless, his smiling face was always welcome and recognised in Hash Circles throughout Hashdom.

While always a gentleman, Magic was known to fall asleep in his soup from time to time. Around the nightspots of Bangkok and Southeast Asia he seemed to lead a charmed life, evading trouble with seeming ease while around him others suffered the loss of cash and personal belongings. His love of a cold beer was legendary and the "Magic" cry for more drinks was frequently heard in many a bar: "Nurse! More piss, Miss" was his ordering trademark, always respectfully shouted. The wife of one Interhasher who had frequently welcomed Tim as a guest into her home said, sadly, on hearing of his demise: "You know, of all your hashing friends who I have known over the years, Tim was the only one I called my friend. He was always a gentleman."

His Bangkok apartment was overflowing with Hash relics from his various travels throughout Hashdom. A shirt here, there a mug, over here some hats and in the bedroom a stack of towels. Papers everywhere in a chaotically mismanaged

way. But, he knew where to find any individual item. Books, shorts, socks and On On it goes. He had all sorts of Hash paraphernalia. (This is to be catalogued by a group of friends from the Bangkok HHH and then disposed of as they see fit.)

On the night of his admission to hospital, Thursday 17 January 1998, Magic was eating and drinking, first with some of his close friends and supporters, some from the Bangkok Hash and some not. Later he went to his favourite Thai haunts, small restaurants and bars where he was well known by the Thai honorific "Khun" Tim. There he ate Thai fried rice, drank Singha Beer and Thai Mekong whisky and soda with ice. He was with his friends.

His movements were subsequently traced by some friends to within the last half hour or so prior to his admission to the hospital just down the street. Later he was to be found outside the hospital, close to unconsciousness, and admitted to the care of one of Southeast Asia's finest neurosurgeons. For the next 7 to 8 days Magic was in good hands as he fought this dreadful affliction. Frequently visited by his friends, he finally slipped away peacefully. He never recovered consciousness.

Tim Hughes had lived a Magic life and is survived by a married, Hashing sister, Michele, and his mother. His extended family includes Hashers worldwide and

many who had not Hashed but shared other aspects of Tim's rich presence on earth. Hashdom is a lot poorer for Magic's loss, but a lot richer for his presence.
Vale T.J.P. Hughes Esq.

On On forever, Magic.

Frank "Whorator" Benfield
22 February 1998

The following account of Magic's funeral was supplied by Drainoil, who quotes from a circular from John Duncan dated 10 February 1998.

How many of you who knew Tim also knew that he had an early career as the guitarist in a pop group, whose rendition of 'Money', originally written by the Beatles, was in the British Top twenty near the end of 1963? Or that he was awarded the name "Magic" by a Florida Deep Sea fishing captain for his skill in landing the big fish? Or that the guitar and big-game fishing were his chosen callings before he met Hashing?

But all this seemed a long way away last Sunday evening from Wat Kaew Fah, in Sri Phraya Road, Bangkok, where Patrick and I arrived for the seventh and last evening of prayers, sponsored this day by Mother Hash. Tim lay at one end of the main hall, in a white coffin, behind a bank of flowers. In accordance with Thai Buddhist custom, one first tapped on the box and said a few words to him, then

took one's seat in the main body of the temple. A procession of perhaps eight monks filed in and sat on the raised platform to our left. The prayers were short, perhaps half an hour, the monks left and we were fed. As was Tim, a tray of food being placed at the foot of the coffin, complete with a can of beer. We took our leave of Tim and adjourned to his favourite Cosmos Club, where Tim's picture, on a shelf on a wall behind the bar, will soon develop into the centre-piece of a small shrine.

The main service in the Wat, which would, one assumes, have normally ended with the cremation, was in the Wat next morning at 10.00. The chairs had been turned, now to face the monks' dais, we each greeted Tim and took our places, and a line of some ten much more senior monks appeared. Now 30 or 40 minutes of prayers and the monks were fed at the round tables to our left front. After some half an hour they resumed their official positions for another 15 or 20 minutes of ceremony, during which a selection of the mourners were ushered up to kneel for a period, each in front of a monk. They left, and we and Tim were served our last meal together. Then we said our farewells.

The short burial service was conducted by an American Catholic priest in the small chapel in the Christian Cemetery. A goodly turnout, far exceeding the capacity of the little building, and Tim was then placed in a sarcophagus outside.

It was no time before 'ON! ON! TIM' had been carved in the wet cement [*This was Whorator's doing. Ed.*]; but this will not long endure, as I understand it will be overlaid with marble. For us it was to a wake at the British Club, another visit to the cosmos Club and ON! ON! home.

ON! ON! TIM
John Duncan

Ouagadougou Hash House Harriers

Founded on 30-Jun-1990 by Tom Holbrook ex ?

Runs alternate Sundays at 4:00pm. Meets at 1530 outside the American Rec Center, Av. Raoul Follereau and convoy to trail. Very friendly family Hash. Lots of dust, not much ceremony. Walkers usually outnumber runners. On parle francais, but there are plenty of English speakers, too.

Visitors warmly welcomed; cost cfa 1000 per adult for beer and soft drinks.

MAIL: Astrid Ilper, 01 BP 600, Ouagadougou, Burkina Faso

Nelspruit Hash House Harriers

Founded on 04-May-1996 by Malcolm Edge ex Maputo
Runs 1st Saturday of month at 16:00 All welcome, even serious marathon runners. This is a newish hash which relies mostly on Maputo and HhoHho to help make up the numbers, thus we only hash irregularly and about once a month and then it is usually a weekend thing. All are made welcome, even "Silver Comrades" runners. Grandma hasn't been yet, but we are patient.. Basic cost is R5.00 for the run and the first beer.

MAIL: Nelspruit HHH, Box 18169, Nelspruit 1200, South Africa

Hanoi FM Hash House Harriers

Founded on 18-Jan-2000 by Duncan 'Condom King' Earle ex Hanoi 3

Gathering on the night of the full moon, we chase a live hare through the streets and alleys of Hanoi in search of hare droppings and the amber, moonstruck fluids that sustain hashers. Join us, and your 50,00/20,000 VND will go towards all the beer we ca
